

## MISSION STATEMENT

Kidz Jungleplay aims to provide our clientele with a “sanctuary” from the events of everyday living, so that you can reflect, focus and enjoy the simple things that really matter in life, such as:-

- The love and company of family and friends
- Special memories that make you smile
- An opportunity to make someone else happy
- Times of learning from each generation
- The enjoyment of a good meal or beverage

Kidz Jungleplay aims to ensure that children at our play centre have a positive and memorable experience that enhances their physical skills and development with play, social interaction with their peers and a capacity to “just have fun”. We aim to assist with creating children of the future who will grow into strong, confident adults in our community. We want to always remember that our most precious gift in life is the next generation of loving, respectful and happy children. Happy children grow into happy adults.

*“The Circle of Life”*
